- Estimate prospects and consult solutions for new projects.
- Manage Flash team's production and resource planning.

SELECTED PROJECTS
More at: http://bit.ly/t3portfolio

Air Show Buzz's BlackBox – *Team leader, Flash developer*   2010
- The application can be download at: www.asb.tv/blackbox/
- Hightlights: Adobe AIR 1.5, AddThis API, Papervision3D, Video streaming
- The main app was done by another team. My team worked on the small locket, sharing module and later optimized performance of the main app.

Snow Fight – *Technology researcher, system designer*   2010
- Realtime multi-player 2D snow-throwing game. This is a research project.
- Hightlights: Red5 server, real-time synchronization, PyCo Flash Framework.
- My tasks: propose concept, do research, design client-server workflow.

Air Show Buzz's Horsemen minisite – *Team leader, Flash developer*   2009
- The site is still live at: http://www.asb.tv/horsemen/
- Hightlights: PureMVC, Google MAP API, XML-based contents.
- My tasks: lead Flash team, design core structure, implement dynamic layout.

Shiho Big Picture site – *Flex developer*   2008
- The site is still live at: http://www.sonyericsson.com/bigpictures/
- Hightlights: Flex 3, Cairngorm MVC framework, localize 30+ languages.
- My tasks: implement dynamic font loading, background page loading, custom effect, some of the pages.

Spa Water Coach – *Team leader, Flash developer*   2008
- A desktop widget which reports and reminds of user's water consumption.
- Highlights: Adobe AIR 1.1, AS3 Flash site, XML services (.NET).
- My tasks: lead Flash team; implement the AIR application.
